

REQUEST FOR PROPOSAL (RFP) for Clay Community Schools Fiber Network

School Corporation: Clay Community Schools

470 #:

The purpose of this Request for Proposal (RFP) is to solicit sealed proposals to establish a contract through fair and competitive negotiations for leased Lit and/or Dark fiber circuits connecting the sites listed in appendix a. The services requested in these documents are part of the E-Rate filings for the School Corporation beginning in the 2020 funding year (July 1, 2024 – June 30, 2025). The vendor must provide their E-Rate Service Provider Identification Number (SPIN) on the proposal in order to be eligible for consideration.

In each building, the selected vendor will demarc the service in an existing network closet to be designated by the District.

SITE VISITS

There will be a mandatory preproposal meeting at 10:00 a.m. EST Friday, December 15, 2023 at the Technology Office Building (501 East Jackson Street Suite B Brazil, IN 47834). Bidders will be given a tour of the existing facilities and an opportunity to ask questions. This will be the only opportunity to ask questions about this work. Failure to have a representative attend this entire meeting will disqualify a bidder.

This project will not be implemented until an E-rate Funding Commitment is received.

DUE DATE

Proposals will be received in the Clay Community School Administration Building at the following address 1013 North Forest Avenue Brazil, IN 47834 until 3:00 p.m. EST, on Monday, January 15, 2024. The School Corporation Board of Education reserves the right to reject any or all proposals. The Board of School Trustees or their designee will, in the exercise of their sole discretion, determine which proposal(s) offer the best means of servicing the interests of the School Corporation. The exercise of this discretion will be final.

Term

Please provide pricing for the following terms for Lit and /or Dark fiber contracts.

LIT Fiber- three-year contract

LIT Fiber- five-year contract

Dark Fiber – five-year contract

Dark Fiber – ten-year contract

PROPOSAL

The proposal should include options for Lit and/or Dark fiber. All proposals should include options for four strands of Lit and/ or Dark Fiber to each site listed in Appendix A. All fiber should be buried fiber. All proposals should include the annual cost for operation, maintenance, and any additional cost associated with the fiber infrastructure. We have provided the termination points for the fiber network. They are listed in Appendix C. We have also included the bandwidth requirements in Appendix B.

SPECIFICATIONS

The District seeks an agreement which allows it to change any individual network segment's service tier as needed during the term of the agreement (up or down). Individual WAN connections must have the ability to scale incrementally in 40 Gbps increments.

The District wishes to work with the selected vendor to establish an appropriate initial service tier for each building to maximize the cost effectiveness of these services to the district, and this may include the need to negotiate modifications to the site list prior to or during the term of the agreement.

Your response should describe all proposed handoffs, including whether you are handing off multiple connections at the head-end or a single, aggregated connection. Please indicate and specify all service provider owned onsite equipment necessary to hand off service to the District's LAN equipment. Service provider must provide this in the form of a network WAN diagram.

Each respondent must provide a proposed Service Level Agreement (SLA) with their response. The proposed SLA must include a description of the services provided, and where applicable, describe how these services will be measured. At a minimum, the SLA should describe that the vendor will make all reasonable efforts to ensure 99.99% network availability of each circuit, and it should provide frame/packet loss, network latency, and network jitter commitments. Additionally, each SLA should describe 24x7x365 trouble-reporting procedures, offer commitments with regard to the time to repair outages, and describe provisions offered in the event of chronic trouble. The services described in the SLA shall be maintained to the specifications of these commitments throughout the term of the contract, and the selected vendor shall remediate any deficiencies at no cost to the District.

We will consider multi-year contracts with or without voluntary extensions. All cost proposals must reflect the LCP (Lowest Corresponding Price), GSA pricing, and any available governmental unit discounts including existing state purchasing agreements or contracts. Any proposal referencing an existing state purchasing agreement or contract must include that information in the proposal. Bid prices must be complete for the services proposed and shall include all associated costs, even if the amounts are estimates based upon current applicable taxes, surcharges, or fees.

RESPONSE FORMAT

All bids must include the following information:

1. A description of services to be provided with detailed information regarding any required construction, including a timeline for completion of every phase of work necessary to demonstrate service delivery by July 1, 2024.
2. Complete pricing for the services described herein. Your proposal must clearly indicate non-recurring costs, recurring costs, and fees for the service being proposed, for each service tier for each site requested.
3. Proposed Service Level Agreement.
4. Three (3) reference sites where your company has performed a similar service, including business name, contact name and contact information. It is preferable that at least one reference should be for a district of similar size within 100 miles of the District.
5. Your E-Rate SPIN Number. (You must have a current SPAC form on file with USAC.)
6. All bids must fill out appendix E for Dark and Lit fiber for each site.

The District's review of information will be primarily focused on the substance of the details provided in response to the requirements herein including but not limited to pricing and terms, technical details, SLA, experience and references, and compliance with the requirements laid out in this document.

SPECIAL CONSTRUCTION

All upfront, non-recurring costs for deployment of new or upgraded facilities including, but not limited to: design and engineering, construction, project management, permitting, and implementation costs shall be bid as a separate cost from recurring lease costs. Project design and engineering and relative construction must not begin before approval of the E-Rate funding. Construction must be complete and the network functional within the funding year, no later than June 30, 2024.

SUBCONTRACTORS

The vendor is responsible for the performance of any obligations that may result from this RFP, and shall not be relieved by the non-performance of any subcontractor. Any vendor's proposal must identify all subcontractors and describe the contractual relationship between the vendor and each subcontractor. The vendor must list any subcontractor's name and address that are proposed to be used in providing the required products or services.

The vendor should include the identification of the functions to be provided by the subcontractor and the subcontractor's related qualifications and experience. Either a copy of the executed subcontract or a letter of agreement over the official signature of the firms involved must accompany each proposal. This assurance in no way relieves the vendor of any responsibilities in responding to this RFP or in completing the commitments documented in the proposal.

The combined qualifications and experience of the vendor and any or all subcontractors will be considered in the School Corporation evaluation. Please include Subcontractor Form with proposal.

COMPANY FINANCIAL INFORMATION

The vendor's financial statement, including an income statement and balance sheet, for each of the two most recently completed fiscal years should be included in proposal. The financial statements must demonstrate the vendor's financial stability. If the financial statements being provided by the vendor are those of a parent or holding company, additional financial information should be provided for the entity/organization directly responding to this RFP.

REFERENCES

The vendor must include a list of at least three (3) clients for whom the vendor has provided products and/or services that are the same or similar to those products and/or services requested in this RFP. Information provided should include the name, address, and telephone number of the client facility and the name, title, and phone/fax numbers of a person who may be contacted for further information. In addition, a brief description of services rendered for the reference should be included. Please include Reference Form in proposal.

EVALUATION CRITERIA

While cost will be the most heavily weighted factor, the evaluation will also focus on the substance of the details provided in response to the requirements herein including but not limited to technical details, contract terms, experience, references, and adherence to the response format provided.

PROPOSAL CLARIFICATIONS AND DISCUSSIONS, AND CONTRACT DISCUSSIONS

The School Corporation reserves the right to request clarifications on proposals submitted. The School Corporation also reserves the right to conduct proposal discussions, either oral or written, with vendors. These discussions could include request for additional information, request for cost proposal revision, etc. Additionally, in conducting discussions, the School Corporation may use information derived from proposals submitted by competing Vendors only if the identity of the vendor providing the information is not disclosed to others. The School Corporation will provide equivalent information to

all vendors which have been chosen for discussions. Discussions, along with negotiations with responsible vendors may be conducted for any appropriate purpose.

TIMELINE

- Mandatory preproposal meeting Friday, December 15, 2023 at 10:00 a.m. EST
- Proposals Due Monday, January 15, 2024 at 3:00 PM EST
- Target date for review of proposals Friday, January 16, 2024
- Anticipated selection of vendor Thursday, February 15, 2024

REFERENCE FORM

The vendor must include a list of at least three (3) references for who the vendor has provided products and/or services that are the same or similar to those products and/or services requested in this RFP.
